

| <b>Nr.</b> | <b>Topic</b>                            | <b>Group</b>       | <b>Premium Partners/Datum der Veranstaltung</b> |
|------------|-----------------------------------------|--------------------|-------------------------------------------------|
| 1          | Gesamtgenom-Sequenzierung (WGS)         | Genomics           | Eröffnung, MGI, 23.Oktober 2025                 |
| 2          | SNP Sequenzierung                       | Genomics           | Premium Partner gesucht* <sup>1</sup>           |
| 3          | Copy-Number-Variations (CNV)            | Genomics           | Premium Partner gesucht* <sup>1</sup>           |
| 4          | Epigenetics                             | Genomics           | Premium Partner gesucht* <sup>1</sup>           |
| 5          | Epigenetische Uhren                     | Genomics           | Premium Partner gesucht* <sup>1</sup>           |
| 6          | Paleogenomics                           | Genomics           | Premium Partner gesucht* <sup>1</sup>           |
| 7          | Pathogen-Nachweis                       | Genomics           | Premium Partner gesucht* <sup>1</sup>           |
| 8          | Digital PCR                             | Genomics           | Premium Partner gesucht* <sup>1</sup>           |
| 9          | Genome Editing                          | Genomics           | Premium Partner gesucht* <sup>1</sup>           |
| 10         | RNA-Sequenzierung                       | Transcriptomics    | Premium Partner gesucht* <sup>1</sup>           |
| 11         | microRNA Sequenzierung                  | Transcriptomics    | Premium Partner gesucht* <sup>1</sup>           |
| 12         | noncoding RNAs                          | Transcriptomics    | Premium Partner gesucht* <sup>1</sup>           |
| 13         | Zirkardiane Rhythmen                    | Transcriptomics    | Premium Partner gesucht* <sup>1</sup>           |
| 14         | Single Cell Transcriptomics             | Transcriptomics    | Premium Partner gesucht* <sup>1</sup>           |
| 15         | Peptidomics                             | Proteomics         | Premium Partner gesucht* <sup>1</sup>           |
| 16         | Multiplex-ELISA                         | Proteomics         | Premium Partner gesucht* <sup>1</sup>           |
| 17         | Massenspektroskopie (MS)                | Proteomics         | Premium Partner gesucht* <sup>1</sup>           |
| 18         | Proteomic Profiling                     | Proteomics         | Premium Partner gesucht* <sup>1</sup>           |
| 19         | Single Cell Proteomics                  | Proteomics         | Premium Partner gesucht* <sup>1</sup>           |
| 20         | Protein Arrays                          | Proteomics         | Premium Partner gesucht* <sup>1</sup>           |
| 21         | Analyten, Hormone,                      | Clinical Chemistry | Premium Partner gesucht* <sup>1</sup>           |
| 22         | Metabolomic Profiling                   | Metabolomics       | Premium Partner gesucht* <sup>1</sup>           |
| 23         | Lipidomics                              | Metabolomics       | Premium Partner gesucht* <sup>1</sup>           |
| 24         | Microbiom-Untersuchungen                | Microbiomics       | Premium Partner gesucht* <sup>1</sup>           |
| 25         | Digitale Pathologie                     | Cytomics           | Premium Partner gesucht* <sup>1</sup>           |
| 26         | Spatial Transcriptomics                 | Cytomics           | Premium Partner gesucht* <sup>1</sup>           |
| 27         | Spatial Proteomics                      | Cytomics           | Akoya, 10. oder 11. Dezember 2025               |
| 28         | Spatiotemporal Transcriptomics          | Cytomics           | Premium Partner gesucht* <sup>1</sup>           |
| 29         | Datentransfer und Speicherung           | Bioinformatics     | Premium Partner gesucht* <sup>1</sup>           |
| 30         | Datenverarbeitung                       | Bioinformatics     | Premium Partner gesucht* <sup>1</sup>           |
| 31         | KI basierte medizinische Entscheidungen | Bioinformatics     | Premium Partner gesucht* <sup>1</sup>           |
| 32         | CAR-T-Zellen                            | Cell Therapies     | Premium Partner gesucht* <sup>1</sup>           |
| 33         | Stammzellen                             | Cell Therapies     | Premium Partner gesucht* <sup>1</sup>           |
| 34         | Immunotherapien                         | Cell Therapies     | Premium Partner gesucht* <sup>1</sup>           |
| 35         | Langlebigkeits-Diagnostik               | Multiomics         | Premium Partner gesucht* <sup>1</sup>           |
| 36         | Consumer Health /Well Being             | Multiomics         | Premium Partner gesucht* <sup>1</sup>           |
| 37         | Krebsdiagnostik                         | Multiomics         | Premium Partner gesucht* <sup>1</sup>           |
| 38         | Seltene Erkrankungen                    | Multiomics         | Premium Partner gesucht* <sup>1</sup>           |
| 39         | Chronische Erkrankungen, Long-Covid,    | Multiomics         | Premium Partner gesucht* <sup>1</sup>           |
| 40         | Pathogen-Screening                      | Multiomics         | Premium Partner gesucht* <sup>1</sup>           |
| 41         | Medizinische Biobanken                  | Biobanking         | Premium Partner gesucht* <sup>1</sup>           |
| 42         | Klinische Proben                        | Biobanking         | Premium Partner gesucht* <sup>1</sup>           |
